About the Owner

Team Lead & Main Contact

My name is Trish, and I own Farrell's Daughter Consulting. As the Lead Marketing Strategist and Creative Director, I'm supported by a team of exclusively female subcontractors. Together, we execute digital marketing and branding strategies through a simplified process, aimed at helping brands make an impact.

My transition from a freelance graphic designer and virtual assistant into owning a full-fledged marketing agency was driven by the realization that my clients required more comprehensive support. My academic background includes a Bachelor of Science in Sociology, which informs my business approach through insights into human behavior and communication. This understanding enables me to craft personalized solutions tailored to each client's unique needs.
